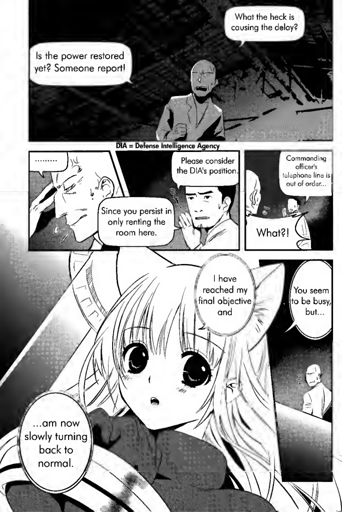
Shit! Did they get the auxiliary power while we were distracted?
The floodlight's batteries were also overtaken!
Bastard!!
Uwaa!!
At last, the stronghold...
I need to find Elis quickly

009 Everyone's hearts are intertwined



What the heck is causing the delay?
Is the power restored yet? Someone report!
DIA = Defense Intelligence Agency
Commanding officer's telephone line is out of order...
What?!
Please consider the DIA's position.
Since you persist in only renting the room here.
....
You seem to be busy, but...
I have reached my final objective and
...am now slowly turning back to normal.

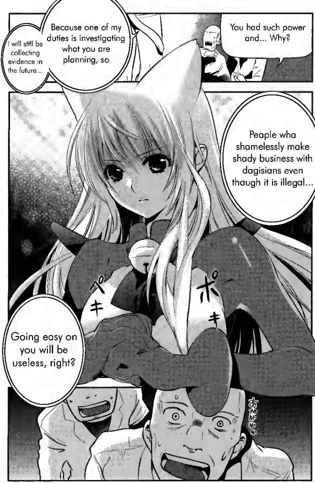
Ridiculous!!!
Those restraints were made from titanium and that was made of hardened glass! What are you?!
This outfit is a personal model powered suit.



You had such power and... Why?
Because one of my duties is investigating what you are planning, so
I will still be collecting evidence in the future...
People who shamelessly make shady business with dagisians even though it is illegal...

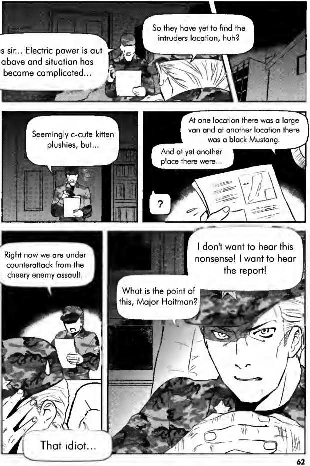
Going easy on you will be useless, right?
あわわわ



So they have yet to find the intruders location, huh?
Yes sir... Electric power is out above and situation has become complicated...
At one location there was a large van and at another location there was a black Mustang.
And at yet another place there were...
?
Seemingly c-cute kitten plushies, but...
I don't want to hear this nonsense! I want to hear the report!
What is the point of this, Major Hoitman?
Right now we are under counterattack from the cheery enemy assault
That idiot...

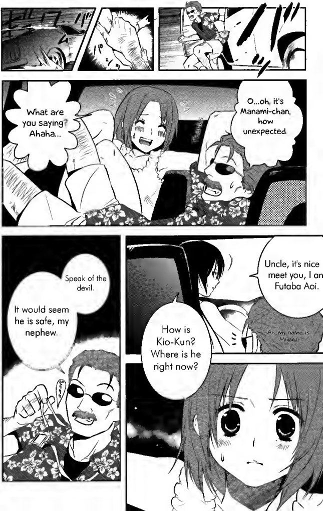
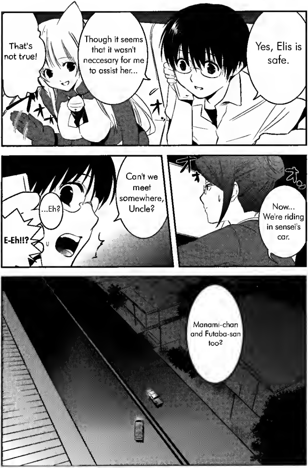
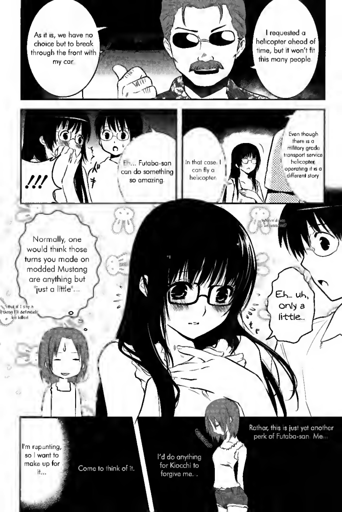
Uncle!!
Chh, did it hit my tire?



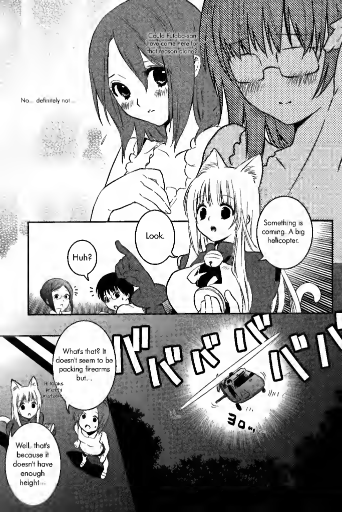
O...oh, it's Manami-chan, how unexpected.
Thanks
What are you saying? Ahaha...
Uncle, it's nice meet you, I an Futaba Aoi.
Ah, my name is Miyagi.
How is Kio-Kun? Where is he right now?
Speak of the devil.
It would seem he is safe, my nephew.



Yes, Elis is safe.
Though it seems that it wasn't neccesary for me to assist her...
That's not true!
Now... We're riding in sensei's car.
Can't we meet somewhere, Uncle?
...Eh?
E-Eh!!?
Manami-chan and Futaba-san too?



I requested a helicopter ahead of time, but it won't fit this many people
As it is, we have no choice but to break through the front with my car
Even though there is a military grade transport service helicopter operating it is a different story
In that case, I can fly a helicopter.
Eh... Futaba-san can do something so amazing.
!!!
Where'd you kellesso?
Eh... uh, only a little...
Normally, one would think those turns you made on modded Mustang are anything but "just a little"...
But if I say a thing I'll definitely be killed
Rather, this is just yet another perk of Futaba-san. Me...
I'd do anything for Kiocchi to forgive me. .
Come to think of it.
I'm repenting, so I want to make up for it...



Could Futaba-san have come here for that reason alone?
No... definitely not...
Something is coming. A big helicopter.
Look.
Huh?
バババババ
ヨロ…
What's that? It doesn't seem to be packing firearms but. .
It looks pretty unstable
Well, that's because it doesn't have enough height...

I didn't expect you guys to have been issued "Escape" command, but...
These little guys flew all the way here?
They have an assessment of the situation to some extent.
But I'm glad, with this we can escape...
